

# ESG - SUSTAINABLE DEVELOPMENT OF YOUR BUSINESS

07/06/2024

# WHAT IS ESG?

ESG is made up of three distinct pillars:  
**Environmental, Social, and Governance.**

ESG is a framework which is part of the CSRD (a non-financial reporting directive) set out by the European Commission in January 2023, modernising the rules concerning the social and environmental information that companies have to report.

The European Commission aims to ensure coherence between industrial, environmental, climate and energy policy to create an optimal business environment for sustainable growth, job creation and innovation.

# THE E COMPONENT - ENVIRONMENT

## YOUR IMPACT ON THE ENVIRONMENT

- **PACKAGING**
- **SUPPLIERS**
